

"A Place For Everything"

is even more essential in the office than at home. Business men occasionally suffer heavy pecuniary losses because of an important paper mislaid. This can be guarded against by providing yourself with one of our new roller-top desks, with the latest, up-to-date time-saving devices and conveniences. A large assortment of flat-top, roll-top and standing desks, book-cases, press stands, letter files, document files, chairs, stools, etc., has just been received ex "Mohican." All styles and prices.

BILL ALL RIGHT

"Plugger" Martin is in the Saddle Once More.

Injuries Not So Serious as First Reported — No Bones Broken — Training for a Match.

SYDNEY.—Although the medical fraternity, upon examining Martin after his serious fall brought about by the erratic riding of Larry Corbett, declared that the American was injured to the extent mentioned in previous advices, it now transpires that "Plugger Bill" has no bones broken at all, and is rapidly recovering, and has actually made his reappearance on the training track. Every one is pleased to see the popular American on the track once more. The League of Victorian Wheelmen has held an inquiry into the circumstances surrounding the accident, and Corbett, who Martin alleges, intentionally ran him into the fence, has been disqualified for one month and he is also recommended to the council of the league for further punishment.

The medical men did not discover what Martin's injuries actually were until three days after the accident occurred. Martin is now riding in splendid form, and expects to meet Don Walker in a match race, to be run at St. Kilda, Victoria. The distances are one, three and five miles, the last two heats paced by multicycles. The St. Kilda Club is putting up a purse of \$500, and Martin is laying Walker \$500 to \$250 that he beats him. Walker has speed enough to defeat the best riders in the world, but he cannot use his head like old "Plugger Bill," and the latter will probably outgeneral him.

RUMORS OF REORGANIZATION.

NEW YORK, June 14.—It is again reported that the Standard Oil Company is to be dissolved and succeeded by another corporation of probably the same name. The general plan as outlined in the rumor that stirred Wall street today is to reincorporate under the laws of New Jersey, which is the home of trusts and corporations. The new articles of incorporation will not include the features to which the courts of Ohio objected.

CYCLONE CASUALTY LIST.

OMAHA, June 14.—A special to the Bee from Herman, Neb., says: Ten persons dead, twenty-five injured, five of whom will die, and half of the remainder suffering from very serious wounds, sums up the list of casualties resulting from the cyclone that wrecked this place on Tuesday night, the 13th.

PHYLLIS RANKIN.

NEW YORK, June 14.—Phyllis Rankin Gibbs, known on the stage as Phyllis Rankin, daughter of McKee Rankin, applied to Judge Scott in the Supreme Court today for an absolute divorce from Henry D. Gibbs, on statutory grounds.

USE OF EUCALYPTUS.

A farmer in New South Wales claims to have discovered a new use for eucalyptus leaves. The discovery is certainly a valuable one if it can be found as effective in practice as it is stated to be. The gentleman referred to asserts that if fruit trees are mulched in winter with eucalyptus leaves they will be entirely free from blight or fungi of any kind the following season. His own practice is to gather all the gum tree leaves within reach, and, if necessary, cut down eucalyptus branches, and spread them over the orchard. If this plan be regularly followed, he states that the fruit trees will be completely protected against scale or fungi of any sort. The discoverer is a practical fruit grower. He further advises that all orchards should be sheltered with eucalyptus, instead of pines, elms, or other deciduous trees, which act as a breeding ground and harbor for the insect pests which so annoy fruit growers. There seems to be a good deal of reason in these suggestions. The eucalyptus trees, it has often been observed, are remarkably free of disease of any kind, and the pungent oil in their leaves probably does contain some property that is repulsive or fatal to the insects and fungi which infest our fruit trees with such disastrous results.

I wish to say that I feel under lasting obligations for what Chamberlain's Cough Remedy has done for our family. We have used it in so many cases of coughs, lung troubles and whooping cough, and it has always given the most perfect satisfaction. We feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks.—Respectfully, Mrs. S. Doty, Des Moines, Iowa.
